Our City of Mexico Correspondence

MEXICO CITT, Nopt. 17, 1865.

The Military Review, published in Mexico, says on the 11th of September that Colonel Garnico entered the city of Hermosillo amidst a great concourse of people, who of Hermosillo amust a great concourse of people, who cheered him on the way. Pesqueira, the general mentioned by Juarez as fighting the imporialists, fled from Ures on the approach of the French. But the Indians, who have at heart to prove their affection for the empire, followed him closely. At the passage of the river Yaqui they took from him four guns, all his material of war, and discourse the angula correct the angula correct the state. mersed the small corns he had with him. Pos ected his escape almost alone, and has taken

and dispersed the small corps he had with him. Peaqueira effected his escape almost alone, and has taken
refuge in Arispe. The imperial troops will occupy Ures,
where the inhabitants have proclaimed their adherence
to the Emperor.

In Chibuahua military operations have also been very
favorable to the imperialists. In twenty days the
column of General Brincourt has succeeded in crossing
the State and in routing all the troops opposing his
march. Despite their reports, all the Juarists fled at the
approach of the French. Aguerre de Santa Rosales, in
has abandond Parral and Alleade, has marched with all
his infantry in the direction of Santa Cruz de Rosales, in
order to effect his escape. Carvagal and Hingiosa have
also gone towards Conception. On the 15th of August
General Brincourt entered Chibuahua, whose population,
oppressed by the Juarists for so long a time, received the
imperialists as deliverops.

In the mountain regions of Zecapeaxtla the Juarists,
who had taken the offensive against the Austrian General
de Thun, have given up this strategy, and are acting
increty or the defensive. General Thun has succeeded
in occapying their principal markets and their centre of
provisious, so as to compel them to attack him on his
own ground. At the Teteln del Ore, defended by the
austrians, all the efforts of the Juarists have failed
against the splendid resistance of these troops.

The visit of the Emperor to the cities of Pachuca and
Tulamingo has been the occasion of great rejoicing
among the inhabitants. He was welcomed by the bishop
of these view cities, and addressed by representatives of
the working class, whom he received with a great deal of
Allability.

Several decrees of great importance have been pub-

the working class, whom he received with a great deal of affibility.

Several decrees of great importance have been published in the official paper of the empire. The first concerns the establishment of what is called in Mexico and in Europe an American railroad; that is to say, cars drawn by mules and horses, as in New York city. This railroad is to connect the portion of the road which has reached Paso del Macho with Puebla, and will likely be temporary till the main road is finished. A sum of \$400,000 has been appropriated by the imperial government for that road, it will be ready and open to the public on the 1st of May, 1886.

The second decree creates military colonies along the thole road, from Vera Cruz to Mexico.

A third decree alludes to foreign emigration, and protains that Mexico is open to emigrants of all nations. tanexed to this there is an imperial decree stipulating but the State will appropriate for public uses a certain number of uncleared hactends in the district of Cordova. these hactends will be divided into lots and given out to migrants.

al exhibition of the produce of the agricul and industry of the country is to take place in the of Mexico on the 1st of next May. Its main object encourage the inhabitants and to select the grades oduce to be sent to the Paris Universal Exhibition

h of August, the Emperor School of August, the Emperor School of Lenner. This is a family festival, a festival of ra which unites every one of us this day under da of our glorious banner. The day upon which amortal Ridalgo, elevating with unprecedented has patriotic voice, united the heroes of a new as era will be forever, to the gons of our country, of reliability, because we then celebrate the insuheart and soul. The words of that cath are the first untered by a good Mexican. I solemnly repeat them show. By heart, my soul, my labor and my lawful efforts belong to you and to our beloved country. No influence in this world can make me waver in my duty; every drop of my blood is Mexican now, and if fod sends fresh dangers to threaten our country you will see ame fight in your ranks for its independence and integrity. I am willing to die at the foot of our glorious banner, because no human power can west, from me the trust. I am willing to die at the foot of our glorious banner, because no human power can wrest from me the trust with which you have endowed me. What I say must be said by every goest Mexican; it must efface past rancors; it must bury-party hattred. Every one must live for the good of our beloved country. Thus united and following the path of duty, we will be strong, and the principles which form the basis of our task will infallibly triumph.

Ambabader for Indemnification, dc.

Our Mexican correspondence of the 4th September contained an account of the robbery of the stage, by which Mr. Carmichael, the chief accountant of the Imperial Mexican Railway, who was accompanied by his Rady and two children, suffered greatly. On their arrival ceived, was suized with labor pains, and prematurely gave birth to a son, who kived, however, but a few hours.

gave brith to a son, who lived, however, but a few hour. This robbery is the first that has occurred since the proclamation by the Emperor to the effect that the district in which any robbery was committed should be held responsible and forced to reimbure the sufferors for their loss an admirable law, and the only one, now that French and Aus rian bayonets have failed, that could possibly keep the roads free from robbers.

Some days after the attack seven of the robbers were uner pectedly met with by some French gendarines, who captured them and brought them down to Vera Cruz, where they were tried by a court martial, found guilty and excuted they following day. Mr. Carmitchael appared at the trial and identified three of the prisoners as belonging to the gang who robbed and wounded him. It was proven that they came from Paso del Macho, a town of some five thousand inhabitants, and as the robbery took place quite close to the town it would be thought that Mr. Carmichael had authing else to do but present his claim for settlement by the municipal authorities of Paso; del Macho yet the imperial government, after keeping Mr. Carmichael willing, through the Minister of the Interior (the Prefect of Vera Cruz not deigning even to acknowledge receipt of Mr. Carmichael and without the least allusion to the law passed by the Emperor on this subject.

Mr. Carmichael was thus not only robbed of everything he postassed and wounded by the miscreants, but Mrs. Carmichael, a young lady universally liked throughout replaced, and without the least allusion to the law passed by the Emperor on this subject.

Mr. Carmichael was thus not only robbed of everything he postassed and wounded by the miscreants, but Mrs. Carmichael, and without the least allusion to the law passed by the Emperor on this subject.

Mr. Carmichael was thus not only robbed of everything he postassed and wounded by the miscreants, but Mrs. Carmichael, therefore, very rightly thought fit to take all this into consideration on receiving this positianimous reply

THE WALL STREET DEFALCATIONS.

Before Recorder Hoffman.

The October term of this court opened yesterday, Re

corder Hoffman presiding, and District Attorney Hall and Assistant District Attorney Hutchings appearing for the

people.

The first business in order was the calling of the Grand
Jury panel; but as there were only a few gentlenen present, those answering to their names were discharged
till this (Tuesday) morning, when another panel will be
summoned to make up the requisite number.

The petty jury list was then called, and, as is usual, a
large majority of the lurger desired to shirk the profession.

large majority of the jurors desired to shirk the performance of this duty of the citizen; but as it is necessary to have jurors to pass upon the fafe of persons charged with crime, the Court only entertained reasonable and proper exch.

ER EST-GM CASE

Ex-Judge Allest, counsel for Edward B. Retchum, charged with extensive forgeries, rose and addressed the Court as follows:—If your Honor please—In reference to the Ketchum case I desire to say that I applied to the District Attorney for a postponement of the trial; but for reasons satisfactory to him, and of which I have no reason to complain, he thinks the indictment should be disposed of at this term. I was not able to see the genilemen on Saturday I desired to see. He (the District Attorney) proposed to set it down for next Monday. As to that I have no objection; but it is possible we may apply to the Court, upon cause shown, to postpone the trial. If so, we will make the best of the case we can. By setting it down for Monday I do not desire to be committed against making the application. District Attorney Hall—This case was on to-day for the purpose of fixing a day in term, and I shall designate next Monday as the day for this trial. Of course, the gentleman can make what motion he is advised to do, but beg leave to say I shall resist it then as I should at all times, and in that connection I wish to move the Court or an order for an additional number of jurors, not exceeding one thousand, returnable at as early a day as possible, perhaps the bulk of them on Monday next, to meet any exigency that may arise in this court. Can I take such an order?

The Court answered in the affirmative.

ceeding one thousand, returnable at as early a day as possible, perhaps the bulk of them on Monday next, to meet any exigency that may arise in this court. Can I take such an order?

The Court answered in the affirmative.

Mr. Hall—I only give this notice in advance to my learned friend on the other side that I shall be prepared to try the case.

The Recorder—Let it go over till next Monday.

District Attorney Hall—I would ask the learned gentleman if he intends to make such a motion that he would do it either on Friday or Saturday, in order that we flight have a decision of the Court about it in gdvance, because your Honor will perceive at once that gifter way, if the trial comes on or if it does not, it will have a considerable effect upon Monday's calendar.

Ex_Judge Allen—We will endeavor to do that.

THE JINKINS GASE.

District Attorney Hall then said—My learned friend, Mr. John McKeon, and myself are here for the purpose of trying the case of Jenkins. Coupsel on the other side, Ex_Judge Edmonds, was in my office this morning, and by an arrangement with him the cuse is set down for next Monday also. In reference to the case of Wagner for murder I desire to stato to your Honor that I have sent the conneal notice. I believe he is in court. What day shall I fix for that to be tried?

Ex_Judge Stuart—I hope to make a plea in that case. The District Attorney—I am final about that; it will have to be tried.

The case was set down for the third Monday.

havy to be tried.

The case was set down for the third Monday.

The District Attorney—I expected to meet Mr. Shaffer here this morning, the counsel in the Onm case (also a charge of murder in the first degree), to have a day fixed for the trial. I will endeavor to have it fixed to-

at he too man is induced as the fact rial.

The District Attorney—It may be a hardship, but the gentleman would have the statutory remedy. It will misself the fact of Jenkins was brought into court, and the above conversational discussion only occupied a lew minutes.

few minutes.

Among the indictments found by the Grand Jury, which was discharged last week, were a number against nickpockets. The species of larceny known as pocket-picking in public conveyances is greatly on the increase, and the District Attorney and the Recorder have come to the conclusion to administer stern justice to the light fineered gentry. Whenever any of the thirty pick-pockets now awaiting trial will frankly 'own up' his guilt he may thus succeed in getting a year or a year and a half 'knocked off' the sentence; but the incorrigible ones who determine to face the jury box, when convicted, will get the most severe sentence the Court can impose.

was sent to months.

William Brady was indicted for a similar offence, in stealing a silver watch from the person of James A. Pyne, a resident of Brooklyn, on the 4th of September while standing in the Park. He pleaded guilty to the while standing in the Park.

Charles F. Corner, indicated for causing the death of Patrick Murphy, was arraigned at the bar. It appeared from the papers that the parties had a difficulty, and while Corner was in the act of defending himself from a blow aimed at him by Murphy he struck him in return, causing the deceased to full off a stoop in Bayard streat, causing the deceased to fall off a stoop in Bayard stres, on the 28th of July. The skull was fractured, which subsequently caused the death of Marphy. Corner, when arrested said he was sorry for it, as he had no intention of throwing him off the stoop.

The Recorder said he had examined the case with care,

PROBABLE HOSICIDE.—Coroner Purrell, of Jersey City, was notified yesterday that a man named Patrick Farrell was notified yesterday that a man named Patrick Farrell was dangerously til at his residence, No. 314 South Eighth street, from injuries received at the hands of two men on Thursday sight last. It appears that some time since Farrell had some difficulty with a man named John Shields, who at the time assaulted him, for which he was arrested and held to bail for trial. On Thursday ovening last Farrell entered a drinking saloon in Newark avenue, where it is alleged he was assaulted by Shields and a couple of companions, but managed to get away, and going home sat down upon the stoop. Soon after Shields and another man came up and attacked and heat him in a most brutal manner, until he was rendered in a mistle from the led rice, and these ran away. The injured man has gradeatly grown worse until now his physician timizs heater is but title appe for his recovery.

The Trial of Jenkins and Ketchum Set

Saturday night Mr. Chandler, residing in Bergen, new the iron bridge over the railroad cut, had occasion to go into his garden, and seeing some person standing in the brashes approached the man, supposing him to be his brother. As he came close to the man he was violently soized and stabbed severely, but not dangerously, in the side. Before assistance could be precured the assassin made his escape. The presumption is that the man was a burgiar, awaiting an opportunity to enter the house.

PASHION COURSE, L. I.—TROTTING.

Those who attended the Fashion Course yesterday after

the first balf mile of the first heat-1:08%-being he quica est half mile ever made in public—if we excep Lantern's ha I mile with a running mate, which was 1.07. The trot was between the stallions Toronto Chief and Commodore Varderb lt for \$1,800, mile heats, best three laying \$1,000 to \$2.0°; and ailer six or seven mapones which these horses have trotted the vexed question as to which is the faster horse seems at length to have been demonstrated. Foronto Chief can beat Commodore Vanderbill when the former hose under the saddle, and Commodore Vanderbill when the former had no part of the race was he forced to the utmost. He was pulled up as he approached the score in every heat, and could undoubtedly have made them much faster had he been pushed. Vanderbill trotted the second and third heats very satisfactorily, and showed more speed than people gave him credit for; but he was overmatched, and did not appear to advantage. He trotted the second heat in 2:25%, and the third in 2:25%. The hast heat of the race, which was given by the judges as 2:24k, was made in 2:25% by all the outside timers. General Butler and Dexter are the only horses who have made better time under the saddle than was made by Toronto Chief vasterday. It would be a grand treat to see these three celebrities trot a race with three good jockeys on their backs. Toronto Chief was the favorite previous to the start at one hundred to forty, and alterwards at any odds required, one hundred to the being taken by a few. The Chief was the favorite previous to the start at one hundred to to the being taken by a few. The Chief was the truck as good as if is generally, the want of rain making it too hard and humpy. Under all the circumstances this race may be set down as about the best that ever took place.

First Feet.—Commodore Vanderbilt to a break, and before he settled down the old horse was about eight lengths abrad of him, This advantage the Chief carried to the quarter pole, in thirty-five and a half-seconds; and put thing on more steam down the backstretch increased the gap to ten or twelve lengths at the half-mile pole. in 1.03½, making the second quarter in hand and slackened his pace considerably, and an in hich on the old Chief. Going up the Flushing end of the course Toronto kept up his high rate of speed,

noon at the above course.

Pools were sold on the course yesterday for the trot on
Thursday, Lady Thorne bringing \$310, George Wilkes
\$175 and Lady Emma \$80.

was played on the Common on Saturday afternoon, the contestants being the Harvard College Club, the holders of the silver ball, and the Lowell Club, of this city. A very large crowd was present, and the Lowell Club, after a hard struggle, succeeded in beating their opponents, scoring forty runs to thirty-seven of the Harvards. By the victory the Lowell Club again becomes the champion of the State.

Poot Race for \$500 a Side between James McCabe and James Mills.

The two mile foot race for \$500 a side, between James McCabe and James Mills, took place yesterday afternoon on the grounds of the Capitoline Base Ball Club, Brooklyn, before a large concourse of speciators. The race was expected to take place at three o'clock precisely, but owing to the late appearance of Mills on the ground it did not commence until near half-past four o clock. The course run over was seven hundred and old yards, taking five times round to complete the two miles. The men, on stripping to their work, showed off to advantage. McCabe is of a medium height, wiry and elastic in his movements. Mills is of much smaller stature, barely reaching above his opponent's shoulder, and of slender build. The start was commenced at a quarter past four o'clock, Mills taking the lead, which he kept until the first lap, and was then about four yards in front. The second, third and fourth rounds Mills kept steadily in front of his adversary, until nearing the completion of the fifth and last lap, when McCabe plunged forward, leaving Mills far behind and winning the race by about ten yards. The botting throughout was on McCabe, ten to one being offered at the commencement, and on the final round ten to three. The time occupied in making the distance was eleven minutes and seventeen seconds. mile foot race for \$500 a side, between James

HOSTETTER'S STOMACH BITTERS.
Man wants a Tonic—no uncommon want—
And every year and month brings forth a new one.
Which, after oranming the gastiles with earl,
The age discovers to be not the true one.
Of such as these let their concectors vanut,
I'll sing the BITTERS that have credit due won—
The world's great Tonic, which no skill can better—
I mean the matchless BITTERS of HOSTETTER. Doctors were living long before old Galen,
And since, exceeding learned, grave and sage;
But the stomachies they were bound to fail in;
Success came not quilt this later age.
Now is the era sick folks are made hale in,
And dread dyspopsia driven from the stage,
Agues, remittents, headaches—real head splitters—
Vanish like suroke before HOSTETTER'S BITTERS Vanish like smoke before HONTETTER'S BITTERS.
Herbs, barks and roots compose the rare infusion;
No mineral poison mars their juless pure.
And Rye's mild essence hotds them in solution,
The faste is pleasant, the effect is sure.
Ne'er have the bitters yet proved a deluxion.
Try them in time, and health and strength socure.
The dragon slayer figures on the label,
And they, like him, to save the weak are able.
